

The Muscatatuck County Park is an important asset to both North Vernon and Vernon. The addition of these trails will only add to its value.

# PROPOSED MUSCATATUCK TRAIL

A MULTI-USE TRAIL TO CONNECT NORTH VERNON TO MUSCATATUCK COUNTY PARK AND BEYOND

### PROJECT VISION

The vision for this project is to connect the Muscatatuck County park to downtown North Vernon via a multi-use asphalt trail. The trail would begin with a trailhead at the entrance to Muscatatuck County Park off of South Gum Street and end with a trailhead at a small neighborhood park near the intersection of State Road 7 and Highway 50 off North Gum Street.

Muscatatuck Park has existing mountain biking and hiking trails, which will be a natural connection to this proposed multi-use trail.

Funding has already been secured for a trail extending from the Muscatatuck County Park entrance south to the Town of Vernon. Once both sections of proposed trail are complete, pedestrians and cyclists will be able to travel safely separated from vehicular traffic between the Vernon and North Vernon.

### PROJECT READINESS

The City of North Vernon has completed a Trails Master Plan. In addition, the funding for the Phase I extension from the Muscatatuck County Park to Vernon has been secured. This project would complete Phase II from Muscatatuck County Park to downtown North Vernon.

### PROJECT BUDGET

\$1,250,000

### PROJECT SCHEDULE

Construction 2012-2013
